

Protocol for a veneer restoration

1.

Place the automatrix

2.

Apply Quadrant Anterior Shine in layers (cervical A3)

3.

Carefully adapt to edges

4.

Spread evenly with the QUAST

5.

Polymerize the first layer

6.

Apply next layer Quadrant Anterior Shine (A2 to incisal)

7.

Spread evenly again with the QUAST

8.

Polymerize second layer

9.

Remove automatrix and polymerize again

10.

Carefully shape with a burr

11.

Polish well
